Pet(s)			
Emergency Contact/Phone:			
Veterinarian/Phone:			
Referred by:			

All boarding pets must be on a flea and tick preventative. If any parasites are discovered during your pet's stay Owner will be notified and a treatment plan implemented. In addition, all boarding pets must be spayed or neutered and provide a current vaccination record (update required annually).

Pepper's Pals and its subcontractors (Pepper's Pals) agree to provide proper care and judgment in order to maintain the safety and general health of all pets under our care. In the event a change in health or behavior is observed, Owners will be notified and an appropriate or alternate plan will be agreed upon. If Owner is unavailable, Pepper's Pals will notify emergency contact and make the best decision regarding the pet's welfare.

By signing below, Owner acknowledges and agrees to the following: 1) They are the legal owner with authority over said pet(s) regarding medical care and other decisions; 2) If a pet requires Veterinary attention while in custody of Pepper's Pals, Owner will assume responsibility for such costs and hold harmless Pepper's Pals, its subcontractors, associates and/or those acting on behalf of Pepper's Pals; 3) Owner will assume responsibility for any damages (personal or property), or injury to other pets caused by Owner's pet; 4) Owner has received, reviewed and agreed to the terms set out in the Service Guide; and 5) Information provided here and in the Pet Information sheet is accurate.
